## PERSONAL PROJECTS

---

### 1 . Full Stack E-commerce App with Admin Panel

- GitHub: [luxifyss](#)
- Live Demo: [luxifys.vercel.app](#)
- Description: Developed a user-friendly interface using HTML, CSS, and React. Implemented server-side solution using Node.js. Managed and integrated MongoDB for database management.

### 2 . Social Media App

- GitHub: [social-media](#)
- Description: Designed responsive Social-Media App using front-end technologies like React.js with almost all the functionality.

### 3 . Blog App

- Description: Leveraged expertise in HTML, CSS, JavaScript, and React to create an intuitive user interface. Utilized Node.js for seamless back-end integration. Ensured consistent performance by managing the database MySQL.

### 4 . Other Projects On GitHub:

- Nextjs Auth: [nextjs-authentication](#)
- EyesCare: [eyescare](#)
- Book Wb: [fullStack-bookWb-php](#)
- Pos Web : [pos-web](#)
